EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicants, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin B. Jackson (602-244-4885) on 1/03/2005.

2. The application has been amended as follows:

In the Claims:

- In Claim 32, page 4, line 7, after "circuit", insert: -- , wherein the lead-free lead extends outwardly from the second surface a distance between about 50 microns and about 125 microns --;
- Claims 34 and 35 are cancelled.

REASONS FOR ALLOWANCE

3. The following is a Patent Office's statement of reasons for allowance:

The prior art does not teach or fairly suggest all of the limitations of the claimed invention including a method of making a lead-free integrated circuit package, wherein the lead-free lead extends outwardly from the second surface a distance between about 50 microns and about 125 microns.

Applicants' Remarks filed on 16th December 2004 (Cf. page 6), which are incorporated herein by reference and made a part hereof as though they were fully written, are persuasive to the issue of patentability.

Any comments considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
